Banquet.

The Republican State Convention  
will assemble in Lexington to-day, and  
Hogway Taylor will be nominated for  
Governor.

The Louisville Free Press, edited by  
Col. Walter Forester, a high-toned  
and brainy newspaper, says emphatically,  
that the man who meets Goebel  
must be a man of ability as a debater  
and who is game, for Goebel will try to  
run his opponents off the stump.  
Goebel's personal fitness for the office  
will have to be discussed, and it is Goebel's  
intention to make this a personal mat-  
ter. Then, well it will have to be a  
personal matter and the man who is to  
meet Goebel has got to stand with him.  
But the Republican nominee for Gov-  
ernor who allows Goebel to bluff him  
as well as quit before he starts.

UNDER the management of the three  
Democratic Commissioners elected at  
the last legislative session in accordance  
with the provisions of the prison  
reform law to take charge of the State  
penitentiaries, those institutions, which  
have cost the State thousands of dol-  
lars to maintain, have been made self-  
sustaining for the first time. This fact  
is shown in the report of the commis-  
sioners for the month of May, just  
made public. It shows the excess of  
receipts over expenditures at the two  
prisons for the month just closed to be  
nearly a thousand dollars and makes a  
comparison with the same month in  
1898, when, under the control of the  
Sinking Fund Commission of the pre-  
sent Republican State Administration,  
the deficit was over four thousand dol-  
lars at one prison alone.

The next time catfish-mouth Taylor  
tries to make a record for himself on  
him and charge it up to the CLIMAX,  
which gets its figures from the May re-  
port.

The Louisville Dispatch editorially  
very sensibly declares that in view of  
the fact that the federal officeholders  
and other minions of the McKinley ad-  
ministration set out to make Attorney  
General Taylor the Republican nomi-  
nee a faction representing a large el-  
ement of the Republican party in Louis-  
ville will be denied admittance to the  
convention. These Republicans and a  
great many others throughout the state,  
says the Dispatch, will refuse to sup-  
port the ticket to be headed by Taylor,  
and it will be a difficult matter for the  
Republicans, with their machine-made  
ticket, to secure the votes of those Demo-  
crats who are in revolt against the  
Goebel machine. As between the two  
machines a Democrat can hardly be ex-  
pected to choose the Republican ma-  
chine.

The CLIMAX calls the attention of  
anti-Goebel-machine Democrats to the  
last paragraph above, from the Dis-  
patch.

The watermelon crop in Kentucky  
promises to be the largest in the State's  
history.

The very word is full of  
pleasant anticipation. In

1899

A CONFERENCE of Kentucky writers  
was held at Nicholasville June 23-24. A  
temporary president, Mrs. Josephine  
K. Henry, of Versailles, and secretary,  
L. L. Wilcox, were elected. A com-  
mittee to draft a constitution and by-  
laws was appointed. The next meeting  
will be held in October at some ac-  
cessible point in central Kentucky.

WHETHER it is to be consistent or  
simply backing down in its opposition  
to Goebel, the Louisville Dispatch is  
certainly more tolerant of Goebel than a  
week ago. Listen to this:

Thousands of Democrats want an  
opportunity to express their contempt  
of the force and fraud of the late po-  
lice convention, but they will not turn  
away from the Goebel machine to sup-  
port Taylor and his ticket.

Fast Throbbing Headache

of sufferers have proved their  
matchless merit for Sick and Nervous

No matter who had been nominated  
at Louisville there would have been  
some kickers. It is always to be ex-  
pected, especially from people, who  
speak under the first twinges of dis-  
appointment, without waiting for calm  
reflection. Such people are usually  
emotional, however, and soon get over  
their troubles. In this instance there  
is little reason for a kick, as the stand-  
ard bearer has been nominated by  
majority of the votes of the regular  
constituted authorities, and they have  
given us a ticket that is as irreproach-  
able as it will prove invincible. Those  
who are disposed to kick do themselves  
harm as well as the cause, since the  
unscrupulous enemy, aided by a more  
unscrupulous foe masquerading as  
Democrats, distort every kick into a  
revolt, every idle remark into a mon-  
strous rebellion. We do not believe  
there is opposition of consequence in  
the Democratic party to Mr. Goebel,  
and we hope the few who are dispo-  
sed to rise a contention will recant as  
quickly as possible and march in the fore-  
front to a victory that is as sure as the  
truth. We were never surer of our  
position in our lives than that Goebel  
and his excellent running mates will win  
and by a majority that will force us  
to take Kentucky out of the doubtful  
column. Stop carping, jump in the  
band wagon and help us run the ma-  
jority to 50,000.—Stanford Journal.

Spain's Greatest Need.  
Mr. R. P. Oliva, of Barcelona, Spain,  
spends his winters at Alken, S. C. Weak  
nerves had caused severe pains in the  
back of his head. On using Electric  
Bitters, America's greatest Blood and  
Nerve Remedy, all pain soon left him.  
He says this grand medicine is what  
his country needed. It is a tonic that  
it cures liver and kidney trouble,  
purifies the blood, tones up the stom-  
ach, strengthens the nerves, puts vim,  
vigor and new life into every muscle,  
nerve and organ of the body. If weak,  
tired or ailing you need it. Every bot-  
tle guaranteed, only 50 cents. Sold by  
Perry & Thomas, Druggists.

CLEANLINESS AND HEALTH.  
Those people in Richmond and else-  
where who have habitually resisted the  
influence of clean water will no  
doubt find great comfort in knowing  
that their theory is supported by no  
less an authority than the Medical  
Record.

The Record says:  
"Cleanliness is an excellent habit.  
It is not, however, an absolute essential,  
nor is it essential at all to health or  
mental activity. The healthiest man  
the writer ever saw is alive and well  
to-day at 94, and he took a bath only  
occasionally—once in the Mersey at  
Liverpool in 1838, and again in the  
North river in 1878, both of which were  
accidental. The gentleman being abso-  
lutely intoxicated when he fell. Almost  
all people who live to an extreme old  
age are found to be those who are not  
over-fond of ablutions, but who are  
otherwise careful in their manner of  
living."

## Consumption

is robbed of its terrors by  
the fact that the best med-  
ical authorities state that it  
is a curable disease; and  
one of the happy things  
about it is, that its victims  
rarely ever lose hope.

You know there are all sorts of  
secret nostrums advertised to cure  
consumption. Some make absurd  
claims. We only say that if taken  
in time and the laws of health are  
properly observed.

## SCOTT'S EMULSION

will heal the inflammation of the  
throat and lungs and nourish and  
strengthen the body so that it can  
throw off the disease.

We have thousands of testi-  
monials where people claim they  
have been permanently cured of  
this malady.

harm as well as the cause, since the  
unscrupulous enemy, aided by a more  
unscrupulous foe masquerading as  
Democrats, distort every kick into a  
revolt, every idle remark into a mon-  
strous rebellion. We do not believe  
there is opposition of consequence in  
the Democratic party to Mr. Goebel,  
and we hope the few who are dispo-  
sed to rise a contention will recant as  
quickly as possible and march in the fore-  
front to a victory that is as sure as the  
truth. We were never surer of our  
position in our lives than that Goebel  
and his excellent running mates will win  
and by a majority that will force us  
to take Kentucky out of the doubtful  
column. Stop carping, jump in the  
band wagon and help us run the ma-  
jority to 50,000.—Stanford Journal.

Spain's Greatest Need.  
Mr. R. P. Oliva, of Barcelona, Spain,  
spends his winters at Alken, S. C. Weak  
nerves had caused severe pains in the  
back of his head. On using Electric  
Bitters, America's greatest Blood and  
Nerve Remedy, all pain soon left him.  
He says this grand medicine is what  
his country needed. It is a tonic that  
it cures liver and kidney trouble,  
purifies the blood, tones up the stom-  
ach, strengthens the nerves, puts vim,  
vigor and new life into every muscle,  
nerve and organ of the body. If weak,  
tired or ailing you need it. Every bot-  
tle guaranteed, only 50 cents. Sold by  
Perry & Thomas, Druggists.

CLEANLINESS AND HEALTH.  
Those people in Richmond and else-  
where who have habitually resisted the  
influence of clean water will no  
doubt find great comfort in knowing  
that their theory is supported by no  
less an authority than the Medical  
Record.

The Record says:  
"Cleanliness is an excellent habit.  
It is not, however, an absolute essential,  
nor is it essential at all to health or  
mental activity. The healthiest man  
the writer ever saw is alive and well  
to-day at 94, and he took a bath only  
occasionally—once in the Mersey at  
Liverpool in 1838, and again in the  
North river in 1878, both of which were  
accidental. The gentleman being abso-  
lutely intoxicated when he fell. Almost  
all people who live to an extreme old  
age are found to be those who are not  
over-fond of ablutions, but who are  
otherwise careful in their manner of  
living."

## NEW YORK FASHIONS.

The up-to-date Summer girl dresses  
her hair plainly when intent upon out-  
ing sport.

A pretty yachting gown is of white  
duck, with wee blue polka dots and  
wide blue duck collar embroidered  
with white anchors.

An odd driving cloak is of tan cloth,  
resembling in its make-up, a Japanese  
garment, with trailing reverses about the  
neck, and wide, flowing sleeves.

All the linens, ducks, piques and  
crash materials are in high favor for  
little girls' wear. Best & Co. show some  
beautiful sailor suits of these wash-  
able materials; which, by the way, are  
just as popular for boys' wear.

A marine hat, all black, with no  
touch of color, is a decidedly smart bit  
of headgear.

Bird-of-paradise plumes are "the  
latest" in feathers. Their lines are  
graceful and pleasing.
